COLOMA, April 5.—Last Monday evening the men with their hearts in the right place met at Smith's bakery and chose a board of directors for the new Y. M. C. A. league of the village. There will be twelve directors and the winner building, one of the best in town, has been selected as the location.

A representative of the league will visit the Benton Harbor association and get pointers on material sufficient for gymnasium, etc.

It is hoped that the organizers may meet with abundant success and, so far, there is no cause for discouragement.

A FAREWELL SERMON

Conkey's Hall Packed to Hear the

Last Sermon of Rev. J. H.

Bicknell.

HOME MISSIONARY NEWS.

A Sermon Concerning the Mor-

mons and the New Mexi-

cans.

Rev. J. H. Bicknell has delivered his

final sermon before a Benton Harbor

audience in the capacity of pastor of

the Christian church. He spoke his

parting words to an assemblage of 1,000

people in Conkey's Opera house yester-

day morning. Next Thursday he will

leave for Liverpool, England, to as-

sume the pastorate of the Christian

church in that city.

There was an element of sadness in

the theatre where the mighty multi-

tude had clustered to hear the last ut-

terances of the man whose energies

have been united with wonderful effect

in the building up, the extending and

fostering of the Christian church in

this city, and at the conclusion of the

sermon, in which the pastor confined

his remarks to the condition of the

unregenerate, and Mr. Bicknell re-

ferred to the relations he had born

with the members of his church the

deep emotion awakened was expressed

in weeping. Mr. Bicknell said:

"I am conscious of a feeling expres-

sive both of joy and sadness. I am joy-

ful because I have witnessed the gath-

ering in of so large a number who con-

ceive a determination to accept salva-

tion, and I am sad because the time

has approached when our relations

must be severed. This parting though

is but for a few moments. Although

we may never meet again on the shores

of time we are promised a reuniting

around the great, white throne. I

shall always remember the close

friendship and intimate relations that

have existed between us, and I

particularly desire to refer to your

benevolence. It expresses the true

love with which the church has

ever been disposed to regard us. I

dare not hope that my lot will ever

be cast with a congregation so warm

and affectionate as the one from which

I am about to separate. I urge you

to be not weary in well doing and I

ask an interest in your prayers. I am

going to a land where the customs and

practices of people will be new to me

and I am assured of your prayers my

burden will be lighter."

After Mr. Bicknell had concluded

his remarks to the church the hymn,

"God be With You Till We Meet

Again," was sung by the congregation,

and the closing scenes of the pathetic

service were wonderfully impressive.

The Odd fellows attended to the num-

ber of twenty-five.

Another large audience assembled in

the theatre at the evening service con-

ducted by Evangelist Lucas. Although

no definite arrangements have been

made it is probable that Mr. Lucas

will succeed Mr. Bicknell. He is an

able expounder of the Christian law

and during his revival work has made

a favorable impression upon the mem-

bers of the society.

A farewell reception in honor of Mr.

and Mrs. Bicknell will be given by the

ladies of the Christian church in Con-

key's Opera house next Wednesday

evening.

IDEAS OF MORMONS.

Rev. C. R. Bliss Gave Some Startling

Information.

Rev. C. R. Bliss, of Chicago, who has

done missionary work among the Mor-

mons of Utah and has been among the

superstitious natives of New Mexico,

spoke at the First Congregational

church last night.

The Mormon church teaches and the

Mormons honestly believe that salva-

tion comes with the laying on of the

hands of the priest and after this bap-

tism the person so baptized is not ex-

pected to lead a life different from that

he led before. They still practice the

doctrine of polygamy and teach that

the more wives a man has in this world

the more crown of glory he will be in

the next. The lady who does not marry

one of these bigamists has no immor-

tality.

The speaker explained how the Mor-

mon church made the laws of Utah and

it nominated and elected the officers.

The duty of the Christian churches was

pointed out to be to educate the state

of Utah which was destined to be of

great importance in the true uplifting

gospel. The Mormons have one thou-

sand missionaries at work, preaching

this unwelcome gospel. If a Mormon

is a hopeless drunkard they make a

missionary of him to save him.

Mr. Bliss painted a still darker pic-

ture of the people of New Mexico who

are living in the superstition of the

dark ages. Every city and village has

its patron saint and a wooden image of

the saint. At each anniversary of the

saint's birth the wooden image is

wrapped in narrow cotton cloth and

paraded through the streets. After the

parade the people gather at the church

and receive bits of this cotton cloth

which they believe are charms to cure

disease and drive away supernatural

mischiefs such as ghosts and goblins.

Men go through the streets with lace-

azed bodies, wearing garments of plated

thorns and some are crucified as a feat

of devotion. The only way to help

these people is through schools.

In a week or two the Congregational

Sunday school will take up a collection

for the support of a college already es-

tablished in Utah.

The Training of the Child.

"The Child Is Father of the Man."

This is the theme upon which Rev.

George A. Sullivan discoursed last even-

ing. He said that the talents were

often destroyed by youth by ruling the

child with an iron rod; parents insisted

upon enforcing in their progeny con-

formity to their opinions of what a

child should be thus eliminating all

individuality and enforcing the adop-

tion of a life foreign to the desires and

inclinations of the child. The child

was father to the man in the sense that

he earlier came into realization of the

truest life. Fred A. Hobbs rendered a

beautiful vocal solo at the evening ser-

vice.

SENSATIONAL TALK.

It Was Indulged In by Mayor Starr of

St. Joseph.

Mayor Starr sprung a sensation in

the political meeting to get voters into

line held by the democrats in the

Academy of Music Saturday night. He

said that the names of nine of the can-

didates for office on the republican city

ticket appear on the membership list

of the St. Joseph A. P. A. that James

Forbes, republican candidate for mayor,

was an A. P. A.

terribly mangled in a fall.

SENSATIONAL TALK.

Mayor Starr sprung a sensation in

the political meeting to get voters into

line held by the democrats in the

Academy of Music Saturday night. He

said that the names of nine of the can-

didates for office on the republican list

ticket appear on the membership list

of the St. Joseph A. P. A.; that James

Forbes, republican candidate for mayor,

was an A. P. A. and the mayor produced

the records of the association which he

affirmed could be examined by those

who had some doubt as to the truth of

his statements.

This information, the mayor said,

was divulged in vindication of himself.

His opponent declared, had caused to

be published, with malicious intent,

the fact that he was connected with the

A. P. A., and to show that his accus-

ers were no better than himself he re-

solved upon the exposition of them.

Another startling assertion was made

by Attorney James O'Hara. He said

that the sheriff of the county had taken

four prisoners from cells in the county

jail and had them register with the

second board of registration with the

expectation of increasing the republi-

can vote Monday. They were men who

had gained a residence in the city

while serving sentences for crime for

which the people had punished them,"

said Mr. O'Hara, "but they'll not vote

here Monday. If they do some paper-

tor will find that there's a lot of

"Israel." Mr. O'Hara's meaning by

this expression is rather uncertain,

but it is presumed that if the convicts

are permitted to cast their ballots the

prosecution of someone will follow.

The election at Chicago tomorrow will have more exciting features even than the one held in Detroit today. In Chicago there are four candidates for mayor and each one of them claims that he will receive half the entire number of votes polled. Three out of the four candidates will be wonderfully disappointed tomorrow night.

There is consolation yet for the candidates defeated at the city election today. They may yet make their election sure. St. Peter in his second episode says that the men who lost today and all others may make their "calling and election sure" by adding to their "faith virtue, to virtue knowledge, to knowledge temperance, to temperance patience, to patience godliness, to godliness brotherly kindness, and to brotherly kindness charity." Honest candidates in this election are never defeated or turned down at the ballot box.

FIFTY THOUSAND IN WANT.

Confronted by starvation in the Water-Swept Region—Appeal to Congress. Memphis, April 5.—The general situation as the result of the floods in the Mississippi valley is terrible. In the lowlands of Arkansas a call for food has been made and the people of Little Rock will take immediate action. Starvation confronts 50,000 people. Saturday night R. C. Graves and J. S. Menkin, of the Memphis relief committee, went to Washington to ask the general government to lend assistance. The local relief committee demands that they will exhaust all present funds. They are from Mississippi as far down as Greenville, and from nearly all of eastern Arkansas. The visitors to the capital of the nation will ask for \$25,000 to be used in buying rations. Ten thousand bushels of rice have been extended by the local committee, and probably \$10,000 more in provisions have been distributed. It now looks as if famine is ahead.

"It is feared that no human power can overcome the forces of nature below Vicksburg, and it is believed many to be the question of a few days before the same conditions that now obtain in the delta will exist in southeastern Arkansas and north-eastern Louisiana. The hopeful view of the flood situation which prevailed some days ago has been rapidly dissipated by reports from the waters of the upper Mississippi and its tributaries, which are rising at a rapid rate with every indication that immense volumes of water, the result of a thaw of many feet of snow over a big area in the northwest, may be expected to pour into the upper Mississippi through its tributaries, and eventually increase the already appalling conditions existing in the middle and lower Mississippi valley.

Floods Increasing in South Dakota. Aberdeen, S. D., April 5.—Heavy rain fell all Saturday in this section, and the flood situation is therefore more serious than ever before. Nearly the entire west and south parts of the city are under water. Main street in the business section is alone clear of present limits of the flood. The ruins of stores on the west side are, however, in great danger. All live stock, blacksmith shops, machinery, and other buildings on the west side are flooded. Home business houses of food and sundries are being driven into the water, and occupants of the Becker house have been driven to their upper stories. A hundred householders have either been driven out or are living in their upper rooms.

Reports from the country districts are alarming. Hundreds of farm buildings are being driven into the water. Stock is standing in water, and hay and feed exposed to the flood. Between Groton and Andover, on the Hastings and Dakota, a boat ferry has been put in, and passengers were transferred thereon yesterday. No other trains are moving in this entire vicinity.

At the last moment the defendants presented a writ of prohibition from Judge Cassidy, of the supreme court, but it was held by the local court that contempt had been made in open court since the proceedings had begun.

But Do Not Offer Any Interference in a Matter of Purely Domestic Legislation—Retaliatory Action Likely in Central Europe and in Canada—South American Looks for Little from the Reciprocity Feature—Interests of Spain and France.

Washington, April 5.—The foreign embassies and legations in Washington are watching the progress of the tariff bill with great care, as it materially affects all commercial nations. Reports are being forwarded to the various foreign offices, and these in turn are being made public abroad for the information of concerned shipping goods to the United States. Naturally the feeling among the diplomats is not favorable to the measure, as it will restrict many of the lines of foreign trade with this country. Among the representatives of the larger countries the expression is general that there will be a large decrease in imports, and that this in turn will be followed by an increase of duties against American goods. The representatives of nations which are most concerned with reciprocity do not regard the reciprocity features of the present bill with favor.

Not Interfering with Our Business. Without exception, however, members of the diplomatic corps are refraining from expressing any influence toward keeping down the duties. The principle is accepted on all hands that this government has the right to frame its tariff as it sees fit, and that it is purely a domestic affair with which foreign ministers have no right to concern themselves. Up to the present time no protests have been filed from any source, although it is said certain representations from the Argentine government are on the way to the minister here. The British embassy strictly adheres to the rule that it has no concern with internal legislation. A full report on the bill is being made to the London foreign office, and the government will take steps to give the widest publicity to the measure as a means of informing English manufacturers of the new conditions of trade.

As to Canada and Germany. Although Canada is a British colony, it makes its own tariff laws, which operate against England as well as the United States. The talk of retaliation on the part of Canada is confined to Dominion quarters, and such retaliation, if resorted to, would not require the approval of the home government. At the German embassy no instructions have been received from the home government relative to the tariff bill, and there is no deviation from the view that the formation of a tariff is entirely a domestic matter. At the same time the great strides made by Germany as an industrial nation give special interest to the present legislation which will affect many lines of German goods coming to this country.

Commercial Warfare a Likely Result. It is considered likely that a commercial warfare will result, which will lead to an increase of tariff rates in Germany. As Austria-Hungary is closely allied with Germany, in commerce as well as foreign affairs, it is said that a tariff increase by Germany would be followed by Austria-Hungary and other central European countries.

FRANCE AND LATIN AMERICA. Bill is Severe on Johnnie Craghead—All As Still, but Protest.

The French officials here are waiting action on the bill by the senate, regarding the present condition of the measure as very imperfect. They take the same view as the British and German officials—that there is no ground for protest, as the tariff is a domestic affair. It is felt that the effect of the bill will be particularly severe on fine woolen goods and silks coming from France. Spain's interest in the bill is due mainly to the trade between Cuba and the United States on sugar, tobacco, etc.

The protection office, the other and the Argentine public in the wool and hides. Press reports from Argentina state that representations concerning the tariff bill have been forwarded to the minister here, but up to the present time they have not been received. The minister, Dr. Moron, has no protest, and his talks with government officials have been unofficial.

The Japanese authorities feel that some of their industries—principally silks, silk handicrafts, straw matting and silk rugs—will suffer severely by the bill. They have made no protest, however, although the extent of the mutual trade gradually being built up between the two countries may lead to some representations being submitted, mainly for the purpose of information.

Changes in Military Commanders. Washington, April 5.—The war department has issued the formal order consequent upon General Ruger's retirement, transferring General Wesley Merritt from Chicago to New York, and General Brooke from St. Paul to Chicago.

Gen. Alger Going to Detroit. Washington, April 5.—Secretary Alger left Washington Saturday for New York, whence he will go to Detroit, expecting to be back in Washington in time for the cabinet meeting tomorrow.

He Is After the Berlin Embassy. Washington, April 5.—Senator Spooner, accompanied by a Wisconsin delegation, called on the president Saturday in the interest of Julius Goldsmith, who wants to be consul to Berlin.

Another Railway Pool Begins Away. Louisville, April 5.—The agreement which has held the Southern Passenger Association intact has been destroyed, as a result of the recent supreme court decision, and the barrier to rate cutting is now down at Memphis and New Orleans.

May View Paddling Mill Closed. Milwaukee, April 5.—The Illinois steel company yesterday permanently closed its paddling mill at Bay View. About 200 men are thrown out of employment. The company will be in paddling at South Chicago hereafter.

Some of Milwaukee's Birthday Gifts. Berlin, April 5.—Among the cartloads of gifts sent to Prince Bismarck on his birthday were some remarkable ones, such as live animals and household pets. A cage full of live mocking birds was sent to him from Alabama.

AYER'S Sarsaparilla

It has been most radically changed. They have put it beyond their power to further amend, even if they should desire to make the attempt, and now desire an opportunity to take stock of what there is left. The friends of the treaty refuse to make any predictions as to the result of the final vote. When taken, but some of them admit that notwithstanding the numerous and radical amendments, there will be sufficient opposition to render the result doubtful.

On the other hand, the opponents of the treaty assert that an actual poll of the senate shows that a vote today would result against ratification. A full analysis of the thirty negative votes will be necessary to defeat the treaty, and the following named senators are said to be pledged to vote against it: Baker, Bate, Berry, Butler, Chilton, Clay, Cockrell, Dabney, Dingle, Hammon, Hendricks, Pennington, Harris, of Kansas, Hettfield, Jones of Arkansas, Jones of Nevada, Mantle, Mason, Kenney, McNary, Mills, Morgan, Penrose, Pettigrew, Pettus, Quay, Rawlins, Roach, Stewart, Teller, Tillman and White. Others considered doubtful are Aldrich, Bacon, Chandler, Clark, Gorman, Turner and Wellington.

IN SANGUINELY BREAKS HIS WORD. He May Whistle Hereafter for Help from Secretary Sherman.

Washington, April 5.—It has come to the knowledge of the state department that General Julio Sangulilly is now at Jacksonville, Fla., and that his followers have given out the impression that the general is about to head an expedition to Cuba. Secretary Sherman was asked what the United States government would do in case this impression is well founded. In reply he said that in the first place he did not believe Sangulilly would do any such thing. His reason for this belief was the fact that he (Secretary Sherman) held in his possession a written pledge made by Sangulilly, in return for the exercise of the good offices of the government in securing his release from imprisonment, that he would have any connection in any manner with the Cuban troubles.

The Spanish government also holds a similar pledge, and in addition Sangulilly has promised not to return to Cuba without its consent. If Sangulilly violated the obligation he had thus assumed the department, Sherman said, would not interfere further for his protection, no matter what befell him, and it would have nothing further to do with him.

House Doing Very Little Now. Washington, April 5.—In the house Saturday Ferry of Arkansas said he was not piqued because he did not get the Democratic nomination for speaker, as he had been charged the senate resolution providing for the charter of a vessel to carry food to the famine sufferers of India was adopted after McMillin had vainly attempted to add to the resolution a condemnation of England's policy there. Corlies of Michigan introduced a resolution to amend the last session of the civil service rules made by Cleveland, and Mahony of New York a resolution to ask Spain not to shoot Rivera. Adjourned to Wednesday.

Call of Democratic to West. Washington, April 5.—Senator Jones, of Arkansas, chairman of the Democratic national committee, Saturday issued an address urging Democrats all over the country to act upon the appeal of Chairman Black, president of the National Association of Democratic Clubs, to assemble on April 13 and fittingly celebrate the 15th anniversary of the birth of Thomas Jefferson. He says there has never been a time more fitting for such a celebration and warmly approves of the plan.

Bill to Repeal Civil Service Reform. Washington, April 5.—A bill to amend the civil service law has been introduced by Zenger, of Indiana, the gist of which is to permit members of the party given to members of any political party within the discretion of the appointing officers.

WASHINGTON, April 4.—From the west and midnight experiences of one of ancient times Dr. Talmage in his sermon draws lessons startlingly appropriate. (His text was Nehemiah 16, "Then went I up in the night by the brook and viewed the wall and turned back and entered by the gate of the valley, and so returned.")

A dead city is more suggestive than a living city—past Rome than present Rome—rises rather than newly frescoed cathedral. But the best time to visit a ruin is by moonlight. The Coliseum is far more fascinating to the traveler after sundown than before. You may stand beneath the arches of the Colosseum and feel the hot breath of the sun and the cold of the night. The Colosseum is a ruin, but it is a ruin that is still a city. The Colosseum is a ruin, but it is a ruin that is still a city. The Colosseum is a ruin, but it is a ruin that is still a city.

Very Best.

Six-cent sugar at 4 cents would be cheap, providing it was the same sugar. Seventy-five cent carpets at 50 cents would also be cheap. But business and philanthropy don't mix. We are selling standard carpets, made by standard manufacturers, get a reasonable price and make an honest profit. The difference between cheap carpets and good carpets is three years' wear instead of seven or eight; dissatisfaction instead of satisfaction, and 10, 15 or 25 cents a yard in the price. Does it pay? Will you buy our carpets—good carpets?
